

dynamic duo

Married couple Brandon and Christine Kang share a passion for radiology—and for each other

It's common to see two physicians working as a team at Gwinnett Medical Center, but this dynamic duo of interventional radiologists work together at home as well.

Brandon Kang, M.D., and Christine Kang, M.D., are with the North Metropolitan Radiology Associates and have been practicing together at GMC and GMC - Duluth for almost four years. Brandon received his medical degree from the University of Tennessee and Christine attended Northwestern University Medical School. Brandon was awarded America's Top Radiologist by the Consumers' Research Council in 2007 and 2008.

The Kangs met during their residency training at the University of Tennessee in Memphis. The training class only

consisted of five residents, so, as two Koreans in the same class, Brandon and Christine became fast friends. Brandon helped acquaint Christine to Tennessee and they worked on their studies together. Soon, they became a couple.

The rest is history, as they say. But Brandon wanted to make their engagement extra memorable. The couple planned to meet some friends for dinner one night. Earlier in the day, Brandon mentioned to Christine that he hurt his back, and he was going to get an X-ray. Christine tried to cancel their dinner date for that night but Brandon insisted on attending. Brandon met

Christine for dinner with his co-worker, who had his X-ray. When their co-worker said that Brandon was fine and did not need back surgery, Brandon disagreed and asked Christine to read the X-ray for a second opinion.

Christine was greatly surprised, as the X-ray read "Will you marry me?" Her answer, of course, was yes. 

Q&A
